Rockey301 (R301) Smart Card Reader Installation

R301 is a CCID compliant smart card reader with USB 2.0 full speed support. It offers a plug-and-play solution.   You don't need to install any driver.

Note:
Please ensure you have administrative privileges to install the software and device

Pos Digicert Smart Card Reader Model Rockey301 (R301)

1. Plug in **R301** smart card reader into your computer, the reader will automatically install all necessary drivers by itself.

2. Your computer shall automatically detect and recognize the device after it has successfully installed.
   Note:
   ❖ You can view the detailed information for the smart card reader in Device Manager. The smart card reader device should be listed as '*Microsoft Usbccid Smartcard Reader (WUDF)*'.

3. The LED turns to Red colour indicates that your computer has detected the smart card reader is now ready to use.

Note:
   ❖ When inserting   the smart card into the smart card reader, ensure the smart card is fully inserted and grip by the reader.   A click sound should be heard as an indicator.
   ❖ The LED turns to **Blue** colour indicates that the smart card inserted correctly and detected by the smart card device.
